

POLICY LIMIT REQUIREMENTS

ONLINE & PROGRAMMATIC FILERS

In compliance with December 2018 rule changes, SLTX must capture policy limits on policies effective on or after **12/30/2018**.

The highest aggregate limit must be provided.

Property Policies

Liability Policies

Package Policies

Other - Accident & Health

HOW TO PROVIDE POLICY LIMITS

The Policy Limit field within SLTX's Online Filing System is available for all new and renewal policies, binders, premium bearing endorsements, and updates.

While submission through EFS is preferred, policy limits will still be collected through the file upload portal on the SLTX website. An Excel template may be utilized to transmit the data. The file name must include the SURPLUS LINES TDI License Number.

Multiple documents may be submitted as a zip file through the form on the SLTX website. The max file size limit is 25 MB. If you do not know your SURPLUS LINES TDI License Number, you may look it up on TDI's Agent Lookup.

Alternatively, you may submit a declarations page with any supplemental pages as a PDF to comply.

WHAT IS REQUIRED?

Property Policies

Total Insurable Value (TIV) for all properties on the policy (both in and outside of the state)

Liability Policies

Aggregate Limit

Package Policies

Total Insurable Value (TIV) for all properties on the policy (both in and outside of the state)

Other - Accident & Health

Maximum Benefit, aka Total Sum (excluding occupational A&H, which are not required to report)
