All premium rounded to whole dollar amounts. 2020 premium and policy count data differs slightly from data reported last year due to corrections and deletions made after data was initially provided.
*The line of business premium and policy count totals do not equal the total reported in a given year due to policies with multiple coverages that are categorized in a different line of business. Example: An Inland Marine policy with Auto Physical Damage coverage is counted under both lines of business, even though it is a single policy.
