

Introduction

This is a supplemental User Guide intended to describe the following SMART features, replacing Batch Management, Transaction Entry, and Batch Edit Report features within EFS:

Filing>Data Entry

Broker Landing page>File>Data Entry

This is a sub section of the SMART User Guide. You may contact TechSupport via [email](#) to obtain a complete version of the User Guide.

Note: Development is in progress; this guide may be updated as new releases are in place.

Prerequisites

You must have an authorized account with active credentials to SLTX's Electronic Filing System (EFS) or SMART application. SMART utilizes EFS credentials; therefore, separate credentialing is not necessary. Prior to accessing SMART and/or utilizing the API, you are required to accept any licensing agreements: Privacy Policy, Terms of Use, SMART Connector and/or API User Licensing Agreement (when applicable).

Environments

The following URLs are used for SMART:

Test: <https://test.sltx.org/> **Production:** <https://smart.sltx.org/>

Site Navigation

To navigate back one or more pages, you may use your browser's back button or clickable breadcrumbs at the top of each page, or the left navigation panel.

Supported Browsers

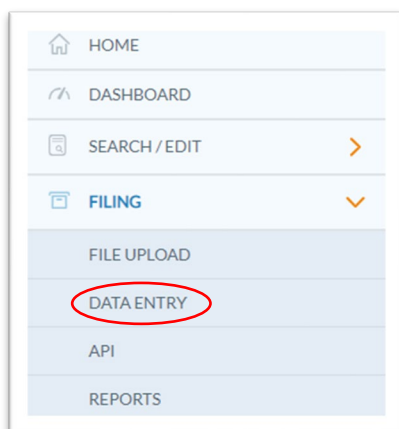

- Google Chrome
- Microsoft's Edge

NOTE: Internet Explorer (IE), regardless of version, is not supported

Primary Navigation

Step 1: Select Filing menu and click Data Entry.

*This allows for Manual Web-Entry or Data Entry Filings, and includes ability to Reverse, Update / Correct, or Delete previously filed transactions.

Data Entry landing page

Once you click Data Entry from Filing menu, you will see the Data Entry landing page.

Home / Filing / Data Entry

Data Entry

Get Started

What would you like to do today?

 **New Filing**

Used to make a new filing with SLTX, such as a new or renewal policy / binder, audit, cancellation, premium endorsement, name change, etc.

[New Transaction](#)

 **Search / Edit**

Used to search for and review the detail of any previously submitted transaction, and/or to make corrections to or edit a submitted transaction.

[Go to Search / Edit](#)

Recent Filings - Last 20 filings

BATCH	POLICY NO.	REFERENCE	TYPE	EFFECTIVE DATE	USER ID	TOTAL GROSS	SAVE AS
5995	TESTCANCELRX		New Policy Reversal	01/18/2021	TESTPOST	\$-1,468.95	
5995	TESTCANCELRX		Cancellation Reversal	04/18/2021	TESTPOST	\$0.00	
5995	TESTCANCELRX		Cancellation Reversal	04/18/2021	TESTPOST	\$1,468.95	
5995	TESTCANCELRX		Cancellation Amendment	04/18/2021	TESTPOST	\$0.00	
5995	TESTCANCELRX		Cancellation	04/18/2021	TESTPOST	\$-1,468.95	

Features

[New Transaction](#) – allows navigation to [Data Entry Transaction page](#) to make filings with SLTX

[Recent filings](#) – allows access to last 20 transactions filed by your agency and includes transactions made by all filing methods (SLTX processed, SMART Data Entry, or SMART API). Click the Policy Number link to view transaction details.

[Save as PDF](#) – allows filing confirmation page to be printed in PDF format

[Go to Search / Edit](#) – allows navigation to Policies Search/Edit page

[Notable changes between SMART Data Entry and EFS Filings](#) – based on feedback provided by users during focus group sessions, several changes have been made to improve overall filing workflow

Data Entry (Manual Filing)

These steps may be used to create the following transactions: **Reversals**

<Note> This allows reversal of any type / sub-type, such new or renewal policy, binder, or policy replace binders, endorsement, audit, cancellation, etc. With this feature, it is not necessary to separately reverse any "action" endorsements (name change, policy number change, inception or expiration date change) as those are automatically handled when you reverse the parent policy (or binder).

Step 1:

Click **New Transaction** from Data Entry landing page to create new filings with SLTX, such as new or renewal policy / binder, audit, cancellation, premium endorsement, name change, etc.

<Future Release> You may also file a delete or update (correct) an existing filing.

Step 2:

Select "Reverse" from category section then select type of transaction by clicking on corresponding Transaction Type Tile. Click NEXT.

Home / Filing / Data Entry / Transaction Type

Data Entry

Select Transaction Type

Please select a transaction type to file.

<input type="radio"/> New Policy document that was issued.	<input type="radio"/> Renewal Policy issued in subsequent policy terms (to extend an already existing policy).	<input type="radio"/> Audit An adjustment of the premium on a policy based on an audit. An audit must be for the entire time the coverage was in effect.	<input type="radio"/> Cancellation Policy is cancelled at the request of the company or the insured.
<input type="radio"/> Endorsement Change(s) to a policy. Used to add or delete coverage from a policy.	<input type="radio"/> Installment Used to let the insured pay out the premium. Usually setup in equal amounts. May be monthly, quarterly, semi-annually, annually, etc.	<input type="radio"/> Reinstatement If there was a Cancellation and premium was returned there would be additional premium for the reinstatement.	

Cancel Next

Step 3:

Input policy number and effective date of your transaction (to be reversed) and click SEARCH to locate transaction.

Features

“Find a {transaction type}” provides identification of record to be reversed (by inputting policy number and effective date of record. This eliminates necessity to search for and/or input the “policy ID” or other pertinent criteria.

Home / Filing / Data Entry / Transaction Type / Find a Policy

Reverse Transaction

Transaction Type: New Report Date: 09/05/2022

Find a Policy/Binder

Input the policy number and effective date of the New and then click Search to locate the New to be Reversed.

Error Resolved: No Date: 07/16/2020

Notable changes between SMART Data Entry and EFS Filings

1. It is no longer necessary to create a Batch. SMART will automatically add all transactions to your batch. SMART will create new batches as necessary to facilitate filing requirements; however, in almost all cases a single batch will be created for each day your agency reports filings and will contain all Data Entry filings made under your license (regardless of the user creating filings).
2. It is no longer necessary to manually input tax, stamping fee, and/or total gross amounts. SMART will automatically calculate these amounts based on coverage premium(s) and policy fee entered and will display these amounts on the entry screen. It is necessary that these amounts are shown on the insurance documentation (per [6 TIC 981.101\(c\)\(3\)](#) and [28 TAC 15.5\(a\)\(3\)](#)). You may use SMART's calculations to assist you in this confirmation.
3. Instead of a Batch Edit Report, you may [print a confirmation](#) of each filing at any time once the posting / filing is complete.
4. With non-Texas exposure, you are only required to enter an individual state and corresponding premium. It is no longer necessary to separately enter Breakdown of States Summary premium.
5. For any non-policy or child transaction, you will be prompted to identify the parent policy first (by inputting the policy number and effective date of the child transaction). This eliminates the need to search for and/or input the "parent policy ID".
6. SMART will automatically display corresponding coverage codes (from the original policy filing) for any non-policy or child transactions. It will no longer be necessary to look up that information prior to filing.
7. Pending transactions will no longer be created for Manual Data Entry transactions. Instead, you will be notified immediately of any errors preventing acceptance of a submission. You will be prompted to correct the errors to complete the transaction.
