

Introduction

This is a supplemental User Guide intended to describe the following SMART features, replacing Batch Management, Transaction Entry, and Batch Edit Report features within EFS:

Filing>Data Entry

Broker Landing page>File>Data Entry

This is a sub section of the SMART User Guide. You may contact TechSupport via [email](#) to obtain a complete version of the User Guide.

Note: Development is in progress; this guide may be updated as new releases are in place.

Prerequisites

You must have an authorized account with active credentials to SLTX's Electronic Filing System (EFS) or SMART application. SMART utilizes EFS credentials; therefore, separate credentialing is not necessary. Prior to accessing SMART and/or utilizing the API, you are required to accept any licensing agreements: Privacy Policy, Terms of Use, and SMART Connector and/or API User Licensing Agreement (when applicable).

Environments

The following URLs are used for SMART:

Test: <https://test.sltx.org/> **Production:** <https://smart.sltx.org/>

Site Navigation

To navigate back one or more pages, you may use your browser's back button or clickable breadcrumbs at the top of each page, or the left navigation panel.

Supported Browsers

- Google Chrome
- Microsoft's Edge

NOTE: Internet Explorer (IE), regardless of the version, is not supported

Primary Navigation

Step 1: Select Filing menu and click Data Entry.

*This allows for Manual Web-Entry or Data Entry Filings, and includes ability to Reverse, Update / Correct, or Delete previously filed transactions.

Data Entry landing page

Once you click Data Entry from Filing menu, you will see the Data Entry landing page.

Features

[New Transaction](#) – allows navigation to [Data Entry Transaction page](#) to make filings with SLTX

[Recent filings](#) – allows access to last 20 transactions filed by your agency and includes transactions made by all filing methods (SLTX processed, SMART Data Entry, or SMART API). Click the Policy Number link to view transaction details.

[Save as PDF](#) – allows filing confirmation page to be printed in PDF format

[Go to Search / Edit](#) – allows navigation to Policies Search/Edit page

[Notable changes between SMART Data Entry and EFS Filings](#) – based on feedback provided by users during focus group sessions, several changes have been made to improve overall filing workflow

Data Entry (Manual Filing)

These steps may be used to create the following transactions: **New or Renewal Policy or Binder**

Step 1:

Click **New Transaction** from Data Entry landing page to create new filings with SLTX, such as new or renewal policy / binder, audit, cancellation, premium endorsement, name change, etc.

<**Future Release**> You may also file a reversal, delete, or update (correct) an existing filing.

Step 2:

Select type of transaction by clicking on corresponding Transaction Type Tile, then click NEXT.

The screenshot shows the 'Data Entry' page with the breadcrumb 'Home / Filing / Data Entry / Transaction Type'. The main heading is 'Data Entry'. Below it is the section 'Select Transaction Type' with a toolbar containing 'Filing', 'Update/Corrections', 'Reverse', and 'Delete'. A prompt says 'Please select a transaction type to file.' There are seven tiles, each with a radio button and a description: 'New Policy' (Policy issued for the first time.), 'Renewal' (Policy issued in subsequent policy terms to extend an already existing policy.), 'Audit' (An adjustment of the premium on a policy based on an audit. An audit must be for the entire time the coverage was in effect.), 'Cancellation' (Policy is cancelled at the request of the company or the insured.), 'Endorsement' (Change(s) to a policy. Used to add or delete coverage from a policy.), 'Installment' (Used to let the insured pay out the premium. Usually setup in equal amounts. May be monthly, quarterly, semi-annually, annually, etc.), and 'Reinstatement' (If there was a Cancellation and premium was returned there would be additional premium for the reinstatement.). At the bottom right are 'Cancel' and 'Next' buttons.

Step 3:

Select sub-type by clicking on corresponding Sub-Type Tile, then click NEXT.

The screenshot shows the 'Data Entry' page with the breadcrumb 'Home / Filing / Data Entry / Transaction Type / Transaction Sub-Type'. The main heading is 'Data Entry'. Below it, 'Transaction Type' is 'New Policy' and 'Report Date' is '04/30/2021'. The section 'Please select a transaction subtype:' has three tiles: 'Regular New Policy' (Policy document that was issued.) with a selected radio button, 'Binder' (Temporary insurance document that includes details of the insurance coverage and serves as a legally binding agreement to insure until an actual policy is issued. The binder must be replaced once the policy is issued.), and 'Policy Replacing a Binder' (Policy document that was issued and will only be filed when a binder transaction was previously filed.) with a coach mark icon. At the bottom right are 'Cancel' and 'Next' buttons.

Features

Coach mark(s) are available for additional situational context. Click the ⓘ icon.

Step 4:

Input appropriate data from the insurance document.

Coach mark(s) are available for additional situational context. Click the ⓘ icon.

As an option, you may **upload a PDF copy** of your insurance document. This will automatically notify TechSupport via email for review, providing additional feedback or to document an indeterminate or questionable transaction.

Note: Use of this feature is NOT required to complete a "filing" with SLTX.

Note: A type-ahead feature is available for Insurers, allowing user to type TDI license number, insurer name, or syndicate number (when applicable).

Alternately, you may select a predefined Contract (or regularly used group of insurers and/or syndicates) that you normally use when making policy filings by typing the contract ID or name in the Contracts field. Any insurers, percentages of participation, and syndicates will automatically be populated based on your Contract selection. Contracts can be created or edited within the Filing/Contracts tab from Broker Search/Edit.

Lloyd's Syndicate(s)

If searching or selecting one or more Lloyd's syndicates, first select Underwriters at Lloyd's London. It's not necessary to input percentage of participation for any Lloyd's syndicate, but info must be included on insurance document (per [6 TIC 981.101\(c\)\(5\)](#)).

Note: If any non-Texas exposure or premium allocation requires updates, a type-ahead feature is available, allow user to input state or territory name or code.

Step 5:

Click POST to submit or file transaction with SLTX.

The screenshot shows a web form with several sections and error messages:

- Dates:** Effective / Inception Date (06/01/2022), Expiration Date (01/01/2022), Continuous Until Cancelled (No), Issue Date.
- Coverage & Class:** A table with columns for CODE & DESCRIPTION, PREMIUM, and DELETE. The CODE & DESCRIPTION field contains "Select..." and has an error message: "A Coverage Code is required, even when there is no premium for this transaction."
- Limit:** Total Insurable Value (10,000).
- Class:** A dropdown menu with "Select..." and an error message: "Required class code was not provided".

Note: If any errors are detected, you will see a notification and the transaction will not post. Make necessary corrections and click on POST to ensure filing is submitted.

Errors represented here are for demonstration purposes only and in no way represent scope of business rules and/or requirements for all filing types.

Step 6:

Once transaction is complete and filing is accepted, a "Good Job" confirmation window will display (as demonstrated below).

The screenshot shows a confirmation window with the following content:

- Good Job!** (with a PDF icon and "Save as PDF" link)
- Policy No. TEST123 has been created.
- How do you want to proceed?
- Buttons: Finish Filing, Continue Filing New Policies, File Another Type

You may print a confirmation of the filing by clicking [Save as PDF](#). You may continue filing by clicking File Another Type or Continue Filing, or simply click Finish Filing to be returned to the Broker Landing page

Recent Filings

Step 1:

After completing STEP 1 from [Primary Navigation](#), find the Recent Filings section on the [Data Entry Landing page](#). This section allows access to last 20 transactions filed by your agency and will include transactions made by all filing methods (EFS manual or automated submissions, SLTX processed, SMART Data Entry, or SMART API).

To perform an in-depth search or locate a specific transaction, click "Go to Search / Edit".

The screenshot shows the 'Data Entry' interface. At the top, there is a breadcrumb trail: 'Home / Filing / Data Entry'. Below this is the 'Data Entry' title and a 'Get Started' section with the question 'What would you like to do today?'. There are two main action cards: 'New Filing' (blue) and 'Search / Edit' (white). The 'New Filing' card has a 'New Transaction' button. The 'Search / Edit' card has a 'Go to Search / Edit' button, which is highlighted with a red box and a red arrow pointing to it from the text above. Below these cards is a section titled 'Recent Filings - Last 20 filings', which is also highlighted with a red box. This section contains a table with the following data:

| BATCH | POLICY NO. | REFERENCE | TYPE | EFFECTIVE DATE | USER ID | TOTAL GROSS | SAVE AS |
|-------|------------------------------|-----------|------------------------|----------------|----------|-------------|---------|
| 5995 | TESTCANCELRX | | New Policy Reversal | 01/18/2021 | TESTPOST | \$-1,468.95 | |

| 5995 | TESTCANCELRX | | Cancellation | 04/18/2021 | TESTPOST | \$-1,468.95 | |

Click Policy Number link to view details of a specific transaction.

Save as PDF

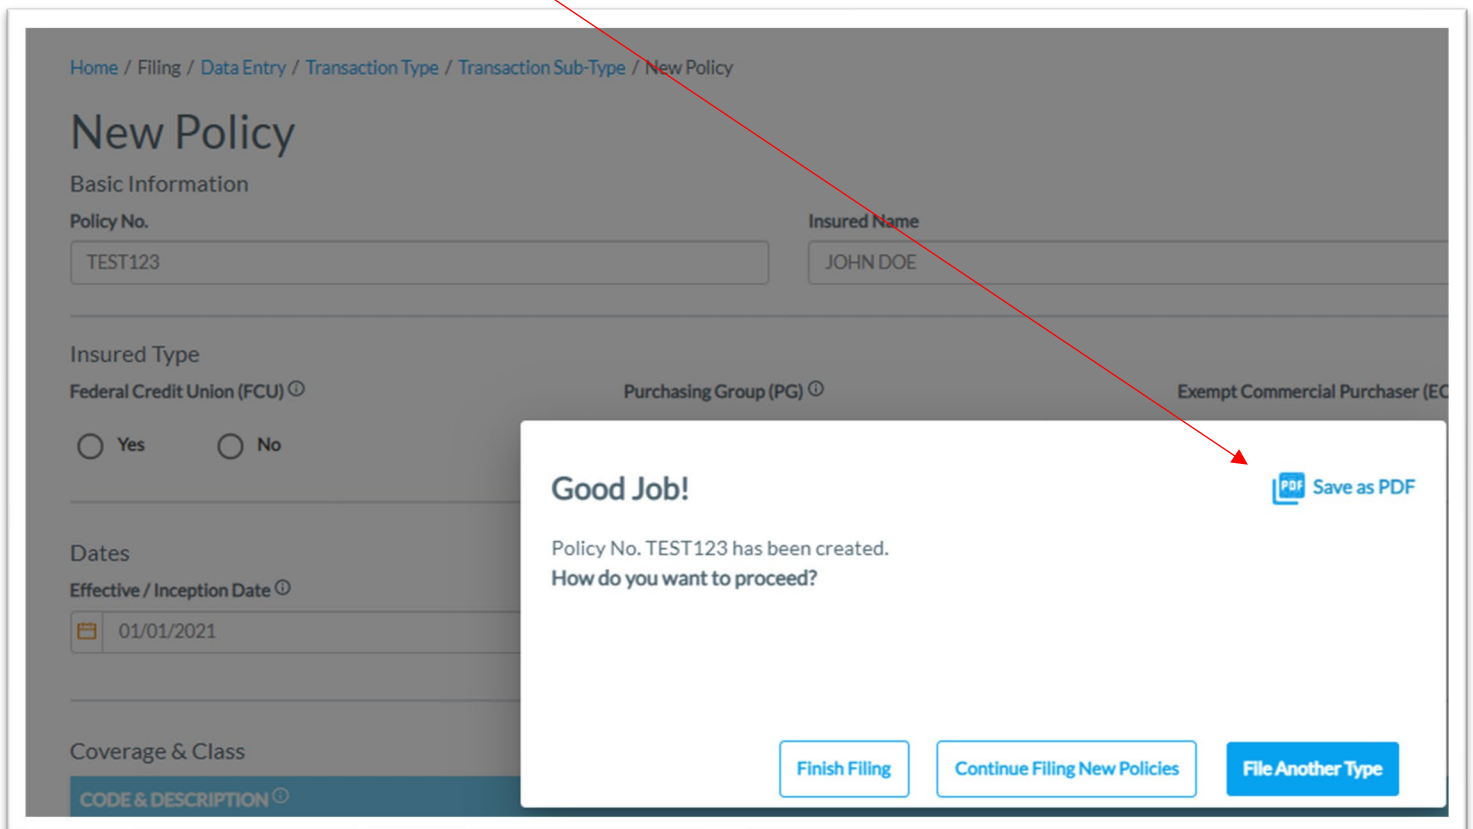

Step 1:

Click PDF icon from Recent Filings section on [Data Entry Landing page](#) to print a confirmation of individual filings. This confirmation page will include all data elements input on the transaction, including Report Date, Batch Number, and SLTX ID (Policy ID) assigned by SLTX. This will also serve as confirmation and acceptance of submission.

| Recent Filings - Last 20 filings | | | | | | | | |

| 5995 | TESTCANCELRX | | Cancellation | 04/18/2021 | TESTPOST | -\$1,468.95 |  | |

Note: You may temporarily see an additional browser tab open displaying transaction details. This facilitates the PDF version and will be closed once document is complete. PDF file will be displayed at the top or bottom of your browser window. To open, double click on the PDF file.

Alternately, the "Save as PDF" feature is available following POST or submission of filing from the "Good Job!" confirmation window.

Notable changes between SMART Data Entry and EFS Filings

1. It is no longer necessary to create a Batch. SMART will automatically add all transactions to your batch. SMART will create new batches as necessary to facilitate filing requirements; however, in almost all cases a single batch will be created for each day your agency reports filings and will contain all Data Entry filings made under your license (regardless of the user creating those filings).
2. It is no longer necessary to manually input (or type) the tax, stamping fee, and/or total gross amounts. SMART will automatically calculate these amounts based on the coverage premium(s) and policy fee that you enter and display the amounts on the entry screen. It is necessary that these amounts are shown on the insurance documentation (per [6 TIC 981.101\(c\)\(3\)](#) and [28 TAC 15.5\(a\)\(3\)](#)). You may use SMART's calculations to assist you in this confirmation.
3. Instead of a Batch Edit Report, users may [print a confirmation](#) of each filing at any time once the posting / filing is complete.
4. With non-Texas exposure, you are only required to enter individual state and corresponding premium. It is no longer necessary to separately enter Breakdown of States Summary premium.
5. For any non-policy or child transaction, you will be prompted to identify the parent policy first (by inputting the policy number and effective date of the child transaction. This eliminates the need to search for and/or input the "parent policy ID".
6. SMART will automatically display corresponding coverage codes (from the original policy filing) for any non-policy or child transactions. It will no longer be necessary to look-up that information prior to filing.
7. Pending transactions will no longer be created for Manual Data Entry transactions. Instead, you will be notified immediately on any errors preventing acceptance of a submission. You will be prompted to correct the errors to complete the transaction.
